Summary

Afterschool program sponsored by Educational Alliance Boys and Girls Club is a Chartered Member Organization that has been helping families since 1900s. This program has a great effect in my community, by retaining extended class sessions after school hours. Providing students with multiple activities that involves, Reading, Writing, Math, Science, and Art. Moreover, they also have classes of Music, Dance, Acting, Physical Education and Trip Tours. These extra curriculum activities help children build self esteem and stay more focused towards school and learn to socialize with other students and teachers. This permits parents to have a peace of mind knowing their children are occupied in school and not wondering outside in the streets.

Afterschool provides a free supper meal for their students during the day which leaves parents worry free of their children being hungry. Most importantly, having children enrolled in Afterschool program opens opportunities for parents to achieve their goals, by working, schooling, running errands, and have an extra time for themselves. For example; In my personal experience, I find the opportunity to continue my education when my children are in the afterschool program. Moreover, I am able to complete my indoor/outdoor tasks, and find myself some personal time.

In conclusion, Afterschool program by Educational Alliance Boys and Girls Club organization has served families since 1900s. Nonetheless, afterschool programs promotes children's self esteem, confidence and help them stay focus in school. Moreover, afterschool teaches children how to socialize with their peers, teachers, and family members. On the other hand afterschool program gives parents the tranquility of their child's well being, and a scope to accomplish their goals. Overall, afterschool program by Educational Alliance Boys and Girls Club has a great impact in my family and all other families through out the community for many years.
