

Domestic Violence

Jesse C.

SOC 11, Winter 2019

Bronx Community College, CUNY

Prof. Remi Alapo

Reason why I'm Interested?

I'm interested in this topic because I'm a Criminal Justice Major and Domestic violence has been one of the most severe cases in the United States . Many women have been beating throughout the the world and nothing has been done about It. I want people to be more alert about this topic and to really be aware that this has been going on for years.

I'm also interested in this topic because I wanna let the ladies know in this class If there is ever somebody you know or yourself getting abused you should not let anyone abuse you for any type of reason.

Current Findings .

- ❖ 10 percent of women are Raped by inmate partners in their lifetime
- ❖ It could affect anyone in any age including race , gender, or sexual orientation.
- ❖ Men are usually responsible for killing one-third of female victims
- ❖ More than 38 Million of American women have been victims of Domestic Violence.

Why do most men beat their partners ?

- ❖ Their partner have psychological problem which they can't control
- ❖ Most men beat their partners because they wanna have control in the relationship
- ❖ Some men usually have anger issues . Which they can't control when arguing with this partners.
- ❖ Most of the time they tend the women to do everything.

Interview

Vaughn : Domestic Violence is one of those nuanced topics because abusive relationships are often not easy to leave because of codependency and threats to take one's own life and gaslighting, which is an emotional manipulation tactic. I have sympathy for those who have involved themselves with people who hurt them physically because that type of behavior is hidden from their partners until it's too late.

Hannah: Domestic you see a lot of men but women abuse their partners. I think domestic violence does not get a lot of attention from authorities.

Kimbelyn (cousin): I believe Domestic violence had been one of the worse cases in the United States. It is something that law enforcement should really focus on moving on in the future .

Similarities and Differences

- ❖ Confuse love with abuse
- ❖ Threaten the victims families and friends.
- ❖ Don't usually tell the law enforcement anything when the they are called in and usually stay shut.
- ❖ Feel unsafe in their own home.

- ❖ Some Women do report their partners to their for domestic Violence.
- ❖ Some women usually fight back and protect themselves even though they might end up losing the fight .
- ❖ Women may leave the household and take their kids away with them , leaving the husband in the house .

What did I learn .

- ❖ I learn that some men usually wanna have control over the relationship and they believe that that the women should do everything that they ask for . Which is not always the case some women don't wanna always do everything and believe that the men should also do some work as well and not make the women do everything in the household .
- ❖ Most women are afraid of calling the cops and telling them that their husband has abused them

Conclusion

- ❖ No men should put their hands on there women no matter what is the situation.
- ❖ Inform others about how severe the situation can be or get.
- ❖ Domestic Violence could lead you to a lifetime in prison.
- ❖ If you know somebody try to help them .
- ❖ Always say no to Domestic Violence .
- ❖ Don't be afraid to let go of your love one If he ever abuses you.
- ❖ If you ever see a family member or someone that you know getting abused by their husband or boyfriend you should go speak to that person and tell them that you need to stop being with him.
