SUMMARY

- I went to the 43rd precinct where I attend NYPD Explores and my advisor from school safety Agent Sherrod gave me a tour of the precinct and she showed me how they speak to criminals. In the 43rd precinct they encourage everybody especially teenagers to change their ways of criminal activity. So they will be able to start a new life. They also use neighborhood police. 43rd precinct uses neighborhood police because the Lieutenant wanted the police officers to have a friendship with the community. In Castle Hill it has worked tremendously. I am a perfect example. Before the NYPD I didn't take school as seriously until I met Agent Caines in my High school. She was one of the advisors for the 43rd precinct she encouraged me strongly to attend one meeting of the NYPD explorers. At first I wasn't interested but she kept encouraging for me to go until I decided to go. When I went I met a lot of other teenagers who were really nice and they made me feel like a family. After that I became a member of the explorer program. Now 4 years later I am a Sergeant in the program and on my way to John Jay so I can go to my next step of the explorers which is the police cadet.
