Conspiracies (Freemasons)

- The Masons (a conspiracy that believes in a group of elite members of society, who use their influence to control political, religious and cultural life).
- political (usually involving allegations of control of government, particularly in the United States and the United Kingdom), religious (usually involving allegations of anti-Christian or Satanic beliefs or practices), and cultural (usually involving popular entertainment).
- Rothschilds would benefit off of wars because once a nation is in debt they'll loan money to the government because its more profit than loaning to an individual. That's how they got in control of world government since the early 1800s till now.
- Also theories are shown that they're behind the assassination of John F Kennedy because he shut down Rothschild Federal Reserve.

Owned Banks

- It is proven that the Rothschild owns most central bank across the world including the Federal Reserve Bank in America.
- In 2000 there was 7 countries that the Rothschild didn't own which was Afghanistan, Iraq, Sudan, Libya, Cuba, and North Korea.
- In 2003 both Afghanistan and Iraq the Rothchilds was able to have control over central bank. People claim 9/11 was an inside job to invade both Afghanistan and Iraq so they can establish a central bank in those countries.
- Since 2013 only 3 countries are left without a Central Bank; Cuba, North Korea, and Iran.

History with Presidents

- Conspiracy theorist claims that Alexander Hamilton was an agent for the Rothschilds and he helped set up the first Central Bank in America called "The Bank of the United States". It's established with a 20 year charter.
- After charter runs out and at the time the 7th president Andrew Jackson goes against the renewal of it which angers the Rothchild.
- Andrew Jackson says, "If Congress has a right under the Constitution to issue paper money, it was given them to use by themselves, not to be delegated to individuals or corporations."

Nathan Mayer Rothchild responds, "Either the application for renewal of the charter is granted, or the United States will find itself involved in a most disastrous war."

Andrew Jackson's response to this is to say, "You are a den of thieves vipers, and I intend to rout you out, and by the Eternal God, I will rout you out."

Finally, Nathan Mayer Rothchild says, "Teach those impudent Americans a lesson. Bring them back to colonial status."

- Later on, a failed assassination happened to president Andrew Jackson

Personal Connection to Me

- When I was around 13-14 I was on YouTube scrolling around. Then I started to just question how the world works and how it functions. I started learning more and more about these conspiracies that are put out there and that's when I found out about the Rothschild family. I started following what they do and how they work in society, and everything that I found out about could make sense. Ever since I've followed up about the Rothschild and if they possibly play a role in the world today.

Summary

- I discussed about the Rothschild family and the disturbs they have on society today. I'll consider the Rothschild an élite group to society, where they have many influences to the decisions that are made politically. Rothschild started around the mid-late 1700s and build a family dynasty since then. They controlled most of Europe banking and from where they benefited from wars in which they supplied the government with money. Rothschild has many conspiracies against them which could actually connect and make sense. Some conspiracies they're mentioned is they are Freemasons, Zionist Occupation Government, Priory of Sion, the CFR, etc.
